The copy filmed here has been reproduced thanks to the generosity of:

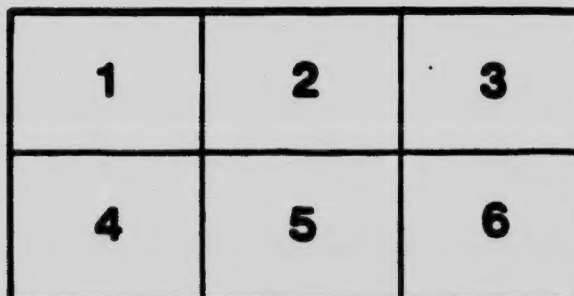

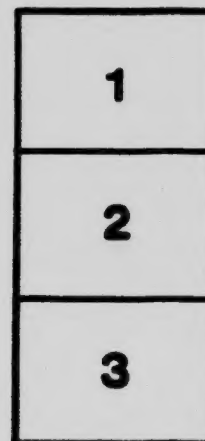

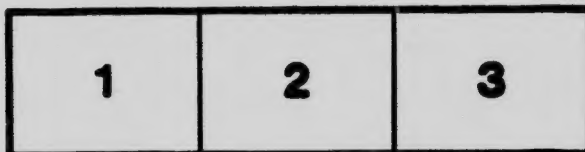

Library of the National
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

FOREWORD

A Story of Success

THE CANADIAN ADVERTISING, LIMITED—MOVES
TO LARGER QUARTERS — WHAT THAT MEANS.

A YEAR ago, we moved to the C. P. R. Telegraph Building (corner of Hospital and St. Francis-Xavier streets). We simply HAD to have more room!

The Canadian Advertising clients are constantly growing in number and this is due to an earnest determination on our part to protect their interests—first, last and all the time.

The business was founded in 1906 and the stock in trade, at the time, consisted of a thorough business training, a thorough knowledge of advertising and a determination to succeed. Our clients were two in number.

The odds seemed overwhelming during the first two years in that little office at 25 St. James street, but since then the growth of the agency has been steady and with this growth a corresponding increase in the office force was compulsory.

In 1908, when we moved to the Royal Trust Building, we thought that there we would have room to expand—soon we had to add one, two and finally three offices.

In December 1911, Holmes Advertising was amalgamated with The Canadian Advertising, Limited, and the business kept on growing, growing until we HAD to move to the C. P. R. Telegraph Building—fourth floor—to larger and more commodious quarters.

The Agency is now in its eight year and it is giving service that is equalled by few, if any, American Advertising Agencies—Equipment, Experience and Advertising Ability, have made for the Success of our Office.

A co-operative spirit has been fostered in the Agency from the very first—and so thoroughly has this idea been impressed that every member of the working force takes a personal interest in the welfare of the business.

It is gratifying to the members of this Agency to feel that the value of the Service it renders has been recognized in the Com-

mercial World. Each succeeding proof of such appreciation shall be an inspiration and an incentive to make that Service even better than it has been in the past.

The Canadian Advertising, Limited gives COMPLETE SERVICE. "From a circular letter to a National Campaign" is our slogan.

We plan advertising, we write advertising, we illustrate advertising, we place advertising—of all kinds.

The following pages contain suggestions which may be helpful to those who wish to achieve success through advertising as well as to those who want to get maximum results from minimum expenditure.

The French Element in Canada.

LORD DUFFERIN, former Governor-General of Canada, once stated that "Canada is fortunate in having her prosperity founded in the co-operation of different races."

This statement can be best appreciated when we add that the total French-speaking population is estimated to be 2,225,000—more than 30 per cent of Canada's total population.

80 per cent of the total population of the Province of Quebec is French-speaking.

70 per cent of the population of Canada's metropolis—Montreal, is French.

The French-Canadian has brought into business all the enthusiasm of his nature and is rapidly taking in its circles the same notable place he has taken in the public life of the country. He is, for example, unquestionably pre-eminent in the grocery trade of Canada. The largest, the second largest, the third largest wholesale grocery houses in Canada are French-Canadian.

In the Province of Quebec, the great bulk of the population being French, it follows that the great majority of retail dealers are French-speaking.

The following figures show the proportion:

Of a total of 3,188 grocers, 2,802 are French, 386 English-speaking.

Of a total of 3,831 general storekeepers, 3,105 are French, 726 English-speaking.

Of a total of 462 hardware dealers, 335 are French, 125 English-speaking.

Of a total of 318 druggists, 250 are French, 68 are English-speaking.

Of a total of 1,490 dry goods dealers (selling hats, clothing, etc.) 1,276 are French, 214 English-speaking.

These figures prove better than any argument, spoken or written, that the French element of Canada's population cannot be over-looked by any wide-awake advertiser.

The French Population of the United States.

THAT the total French-speaking population of the United States exceeds 1,500,000 is a fact that was recently affirmed by Mr. C. Hebert de Fosse, the statistician employed by the National Republican Committee to furnish statistics as to the political opinion of the various foreign elements of the United States population.

Most of these people are established in the Eastern States, Michigan, Indiana, Illinois, Louisiana and the North West.

It is interesting to note that this French-speaking population exceeds the total population of such states as Nebraska, Oklahoma, South Carolina, South Virginia, Arkansas, Kansas and Maryland.

It also exceeds the total population of several groups of states, viz:

1st group—Arizona, Connecticut, Wyoming, and Idaho (total population, 1,435,739).

2nd group—Maine, Vermont, Delaware and New Mexico (1,466,357).

3rd group—Rhode Island, New Hampshire, Utah, and Nevada (1,348,758).

4th group—Indian Territory, North Dakota, Montana and Wyoming (1,281,281).

5th group—Colorado, South Dakota and Oregon (1,492,431).

6th group—Florida and Washington (1,195,640).

This means that no less than **twenty-seven** states in the Union have smaller population than the total French-speaking population of the United States.

No National Advertiser would think for one minute of leaving out these states when preparing his campaign — yet, how very few of them think of **intensifying** their publicity by using special advertising that will appeal to the 1,500,000 French-speaking citizens of the United States.

WE SUPPLY CORRECT FRENCH TRANSLATIONS

In response to an ever increasing demand, we have decided to extend to the English speaking manufacturers and trade generally, the service of our French **Translation Department**, heretofore reserved exclusively to the clients of our Agency.

This Department, under the direction of Mr. L. J. François, for many years Editor of "Publicité—Publicity", and Mr. Edmond Montet who has had broad journalistic experience, comprises also men who have experience in business journalism, knowledge of the printer's art and practical money-making advertisement practice, including the planning, writing and setting, as well as illustrating.

Many times the French papers have pointed out gross errors in translation, and very unhappy attempts at french writing of circulars, booklets or catalogues, sometimes coming from first class houses, which being unable to judge of the quality of this commercial literature in a foreign language, have seriously suffered thereby.

We take charge of the writing and printing of circulars, catalogues, booklets, etc., and also the preparation of electrotypes of matter carefully corrected and revised for the use of houses which have special arrangements with printers.

We are in good position to quote reasonable prices on any kind of work of this class which may be proposed to us.

THE CANADIAN ADVERTISING,
LIMITED
4 Hospital Street, MONTREAL, Canada

Reaching the French Element of Canada and the United States.

THE French language is an element of Canadian business. The use of this language is not a privilege but a **constitutional right**. Ninety per cent of the French-Canadians speak only the French language.

Consequently, the French language **MUST** be used in all forms of Advertising intended to reach the French element of Canada's population.

Many advertisers who place their business through "home" agencies often complain that their French advertising is not producing results expected by them. This is due to the fact that most agencies are unacquainted with the trade problems of the Province of Quebec—they do not understand the French mentality.

Necessity compels most of these agencies to send out to French papers electrotypes or proofs of electrotypes for advertising matter in English, with instructions to translate the copy and set it up in the type of their own language.

Now, advertisements that are strong and effective in English are never so good when translated into French.

Masses of good English copy fail completely when translated into French because they contain aphorisms applicable only to English speaking people, or comparisons that have no relevancy in French Canada.

Some unscrupulous translators knowing that the agencies' checkers have no means of knowing whether the body matter of advertisements is correct or otherwise, take very little trouble in translating English ads, using the first equivalent the lexicon gives for any English word they do not understand.

In most cases the "translated" ads that appear in the columns of French papers positively cast discredit on the firm whose goods they "advertise."

French-Canadians are very sensitive to any slight that is paid their language and can only be appealed to through advertisements that are clearly expressed in idiomatic and colloquial terms.—Merely literal translations cannot possibly draw sales across the line of profit, for the very simple reason that the French-speaking public have view-points, tastes, preferences and ideas that differ entirely from those of the English public.

MONTREAL, pop. city only, 466,197 — Greater Montreal, pop. over 600,000. The commercial metropolis of Canada, situated on the Island of Montreal, at the confluence of the St. Lawrence and Ottawa rivers, at the head of ocean navigation, at the base of the great inland canal system and with all the various railway sys-

tems, centering here, it is, at present, for seven months of the year, the natural harbour for the whole of Western Canada as well as the North Western states, and it is only a question of time and commercial development when the five months close of navigation will be materially lessened, perhaps eliminated, thus giving to Montreal an open port all the year round. The present tonnage, inward and outward, of sea-going vessels during the seven months of navigation amounts to 4,000,000 tons, while over 7,000,000 represent the inland tonnage, inward and outward.

RAILROADS—Canadian Pacific (terminus and head office), Intercolonial (terminus), Grand Trunk, (terminus and head office), Canadian Northern, Central Vermont, Delaware & Hudson, New York Central, Rutland.

BANKS—British North America (head office for Canada and 2 branches), Commerce (2 branches), Dominion (3 branches), Eastern Townships (3 branches, Hochelaga, (Head office and 13 branches), Imperial, Merchants (head office and 4 branches), Molson's (head office and 6 branches), Montreal (head office and 10 branches), Nationale, Nova Scotia, Provinciale (head office and 8 branches), Ottawa, Quebec (3 branches), Royal (head office and 6 branches), Sterling, Toronto (6 branches), Traders, Union, City and District (head office and 8 branches).

COLLEGES, etc.—McGill University (English) Laval University (French), Polytechnic school, Technical High School, Catholic Commercial Academy, Ste-Marie College, Loyola College, Mount St. Louis, etc.

NATURAL RESOURCES—Sandstone, cement, large water powers.

MONTREAL FACTS.—Montreal is Canada's largest city, ranking third in size among cities of the British colonies.

Montreal is on a 1,400 mile inland river and canal system, 14 feet draught. United States water route, Buffalo to New York 430 miles, 6 feet draught.

Montreal-Quebec channel, with minimum depth of 31 feet, accommodates vessels of 15,000 tons as against 6,000 tons 15 years ago and 10,000 tons 10 years ago.

Montreal's manufacturing products, 1905, 118 millions. Increase 40% in 5 years. Capital invested, 112 millions, since greatly increased.

Montreal's port handles one-third of Canada's commerce, over \$200,000,000 worth.

70% of Montreal's population is French speaking.

NEW YORK has a french-speaking population of 120,000. The french-speaking colony of New York is one of the most important in the Union. There are six French Charity Institutions: the Maternity Hospital, St. Vincent de Paul Orphanage, Little Sisters of the Poor, St. Vincent de Paul Benevolent Institution, the Sisters of Good Help Institution, and the Hospital of the Benevolent Society. Four catholic churches and two protestant churches where religious services are held in French; 4 literary societies; 1 Chamber of Commerce; and numerous masonic lodges.

This entire volume would not suffice to publish a list of French business and professional men established in New York.

Where do the Papers You use Circulate?

LA PRESSE, Canada's Largest Circulating Daily Paper makes it easy for advertisers to estimate its value as an advertising medium. :-:

Before you sign a contract for advertising in any newspaper, make sure first that sufficient copies are distributed in the field you desire to cover, to warrant the rate asked.

This can only be done by securing a sworn detailed statement like the one shown on this page.

When you have satisfied yourself on the quantity of the paper's circulation, and on the distribution of the quantity, you may then look to the matter of quality.

LA PRESSE has the largest and most concentrated circulation of any Canadian daily. The following figures will be sworn to for the benefit of those who do not consider this statement sufficient guarantee for their protection.

When you have been convinced of **LA PRESSE'S** superiority in quantity of circulation, we'll be glad to have a chance to prove the quality.

Here are the June 1913 figures:

Montreal and suburbs	66,408
Province Quebec (Outside Montreal)	34,995
Total Province Quebec	101,403
Elsewhere in Canada	4,203
Total in Canada	105,606
French Section of New England States	21,632
Grand total	127,238

Don't accept bulk circulation figures from any newspaper. Publishers who refuse to show where their papers are distributed, do so because they are afraid of a show-down.

Don't be fooled by conversation and excuses, get the facts. You're entitled to them.

If you want any information about Montreal or Quebec Province as a market for your goods, write the Advertising Manager.

The Business That Counts

is the business everybody else is not after. Get into virgin territory and your success will be quicker than it would be where competition is keener.

In the Province of Quebec, (not including Montreal or other cities), there are over 1,100,000 French-speaking people living in the villages and rural districts, who never see your advertising in the large daily papers.

These people are wealthy. Their income from field crops and dairy products *alone*, is about \$125,000,000 annually.

The Farmers' Weekly LA PRESSE has a circulation of 45,000 right in the homes of these people, who depend to a great extent on the advertising it carries to supply their daily wants.

Do You want a share of this business ?

It's easy to get.

You Can't Cover the French Field—without

La Patrie

It is a recognised fact by National advertisers who sell to French Canadians, that Montreal LA PATRIE'S "good will" is a mighty big factor which cannot possibly be overlooked.

Every Advertiser who gets behind LA PATRIE'S good will and influence can open the door to thousands of good homes that are to be reached in no other way.

LA PATRIE has increased tremendously in circulation, advertising patronage and size and to-day ranks amongst Canada's largest papers. Rates and circulation details from all Advertising agents or at our branch office.

DOES'NT THIS MEAN ANYTHING TO YOU !

The very fact that the firm who wrote the letter reproduced here has found *La Patrie* a valuable medium, is something you cannot overlook when making your next appropriation.

Montreal

Gentlemen,

We take great pleasure in sending you this note of appreciation for *LA PATRIE* as an advertising medium.

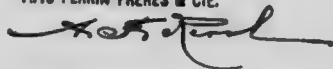

For a number of years we have used your paper to reach the French speaking population of Canada, and have to congratulate you on the splendid results obtained.

The enormous increase in our business is the best testimony we can give you.

We wish to assure you of our good wishes and remain,

Yours very truly,

P. PRO PERRIN FRÈRES & C^{ie}.

This kind of testimony comes only from "delivering the goods."
It is evidence that *La Patrie* can make good for you too!

The circulation of *La Patrie* (with the exception of one paper) is greater than the combined circulation of all the other French papers in the Province of Quebec.

"Le Nationaliste"

Montreal's best known French Sunday Paper—the most talked of political organ in the Province of Quebec.

The "Nationaliste" is the only Sunday paper in Montreal which has ten years of existence and is the recognized organ of the rising generation of French-Canadian writers.

It stands for Canadian autonomy in political, military and commercial matters and for public rights in the management of the country's natural resources.

The "Nationaliste" at once struck a responsive chord in the hearts and affections of the great mass of the French population of Montreal and the Province of Quebec.

Its circulation and popularity have grown rapidly.

It offers a great field for advertisers.

Its publishers emphasize its value for goods purchased by men or for anything in which men are interested.

Facsimile Typewritten Letter Department.

WITH facilities for turning out 50,000 perfect typewritten letters per day, this Department is unquestionably the largest and most complete of its kind in Eastern Canada.

Letters can be printed in exact typewritten type to match any color typewriter ribbon and any make of typewriter, and when filled in with name and address have that personally dictated individual looking appearance of the original typewritten letter.

Our special signature attachment provides for the perfect reproduction of your signature in special signature ink, or we can sign your letters by hand with pen and ink.

Letters can be printed in French as well as English and translations are made by us without charge.

Addressing by typewriter or by hand, folding, enclosing, sealing, stamping and mailing in any quantity, are also features of this department.

Our experience in this class of advertising justifies our classification as experts in the writing of business getting letters.
